

16. **Describe the qualifications of the person administering drugs, alcohol, or nutritional supplements, or drawing blood, taking tissue samples or giving injections.** (Note: 1) persons doing venipuncture must provide a copy of their certification to draw blood and proof they completed a blood-borne pathogens training course. 2) Indwelling venous catheters and lines can only be done by licensed/registered/certified medical personnel such as physicians, RNs, and EMTs. Proof of certification is required. 3) Arterial blood sampling can only be carried out in an appropriate medical facility such as a hospital, clinic or the KSU Health Center. The procedure can only be carried out by qualified personnel under the direct supervision of a licensed physician.)
